Bryan Nelson

State Representative, District 38

****URGENT****
Immediate Action
Required!

Dear Friend,

Even though the 2009 Legislative Session concluded last Friday with the passage of our state's \$66.5 billion budget for FY 2009-2010, there is still one major issue that may affect many of our friends and families here in District 38. I am referring to the proposed septic rule for the Wekiva area by the Department of Health. We were successful in having language put into the budget that would prohibit the Department of Health or any other state department or agency from moving forward with any rule related to septic systems until the study I fought for and won last year is completed. It was certainly a hard battle in the legislature to have this language implemented and it is not the exact language we would prefer, however it is a start and it does stop any immediate action from any department.

The language reads as follows: "From the funds in Specific Appropriation 471, \$540,000 from the Grants and Donations Trust Fund is provided to the department to continue and complete the study authorized in Specific Appropriation 1682 of chapter 2008-152, Laws of Florida. The report

shall include recommendations on passive strategies for nitrogen reduction that complement use of conventional onsite wastewater treatment systems. The department shall submit an interim study and report on February 1, 2010, and a final study and report on May 1, 2010, to the Governor, the President of the Senate, and the Speaker of the House of Representatives prior to proceeding with any nitrogen reduction activities."

As you can see, there can be no further advances by the Department of Health until next year at the earliest; however, this language is not guaranteed just yet. Governor Charlie Crist received the budget today and there are other parties who will lobby him to line-item veto this specific language. I am asking you to contact the Governor with a letter stating that this line item must be preserved and passed. You can write to the Governor at:

**Governor Charlie Crist
State of Florida
The Capitol
400 S. Monroe St.
Tallahassee, FL
32399-0001.**

It is imperative that you urge the Governor to allow specific appropriation line item 471 to remain in the Florida budget for FY 09-10.

There is only a limited amount of time the Governor has to review and sign the budget, thus the sooner these letters reach him, the better our chances are. If you have any questions about this, please attend one of my post-session town hall meetings or call my district office at (407) 884-2023. As always, it is an honor to serve District 38 and I look forward to our continued

Thank you for your support!
